fines

Librarian+ &
custom themes

Email loan
reminders

What Our Customers Say:

"I have been consistently impressed with Libresoft Librarian+'s reliability and functionality. It's attractive to look at and generally intuitive to use, with an impressive array of features which make the job of librarian more efficient and more helpful to readers."

- Librarian, Elian's British School
of La Nucia

"I was using another well-known system before and I wasn't a big fan of it – it felt a little outdated and slow, and would be generally frustrating, but was also quite expensive for our small budget. I had all of my records migrated super quickly. I wouldn't look back – I love the new system. It's changed how our library runs and we've got lots of ideas on how to utilise it!"

- Librarian, St Joseph's Catholic School
